MACARTHUR MINERALS LIMITED

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Australian Dollars)

(Unaudited)

FOR THE NINE MONTHS ENDED DECEMBER 31, 2020

1. NATURE AND CONTINUANCE OF OPERATIONS

Macarthur Minerals Limited (the “Company”) is an Australian public company listed in Canada on the TSX Venture Exchange (“TSX-V”) (symbol: MMS), Australian Securities Exchange (“ASX”) (symbol: MIO) and OTCQB Venture Market (“OTCQB”) (symbol: MMSDF). Macarthur Minerals has three iron ore projects in the Yilgarn region of Western Australia. The Company has also established multiple project areas in the Pilbara, Western Australia for conglomerate gold, hard rock greenstone gold and hard rock lithium. In addition, Macarthur Minerals has lithium brine interests in the Railroad Valley, Nevada, USA.

As at December 31, 2020, the Company has the following subsidiaries (who are collectively the “Group”):

- 100% of Macarthur Australia Limited, which holds the following 100% subsidiaries:
 - 100% of Macarthur Lithium Pty Ltd (“MLi”) which holds the Macarthur Lithium Projects;
 - 100% of Macarthur Iron Ore Pty Ltd (“Macarthur Iron Ore” or “MIO”) which owns the Lake Giles Iron Ore Projects
- 100% of Macarthur Lithium Nevada Limited (incorporated in Nevada)
- 100% of Esperance Iron Ore Export Company Pty Ltd (previously Macarthur Midway Pty Ltd)
- 100% of Macarthur Marble Bar Lithium Pty Ltd (previously Bachelor Project Pty Ltd) (a dormant subsidiary); and
- 100% of Macarthur Minerals NT Pty Ltd (“MMNT”) and MMNT’s 100% subsidiary, Macarthur Tulshyan Pty Ltd.

There was no change in the nature of the Company’s principal activities during the period.

The Company maintains its corporate head office and principal place of business at G03, 555 Coronation Drive, Toowong, Brisbane, Queensland 4066, Australia.

2. BASIS OF PRESENTATION

These condensed interim consolidated financial statements are unaudited and have been prepared in accordance with International Accounting Standard (“IAS”) 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with IFRS issued by the International Accounting Standards Board.

This interim financial report is intended to provide users with an update on the latest annual and half yearly financial statements of Macarthur Minerals Limited and its controlled entities (referred to as the “Consolidated Group” or “Group”). As such, it does not contain information that represents relatively insignificant changes occurring during the interim period within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended March 31, 2020, together with any public announcements made during the following three-month period.

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value, as explained in the accounting policies, refer to Note 3.

In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The comparative figures presented in these condensed interim consolidated financial statements are in accordance with IFRS and have not been audited. The preparation of interim consolidated financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These condensed interim consolidated financial statements do not include all of the information required for full annual financial statements.

These condensed interim consolidated financial statements were authorized by the Board of Directors of the Company on February 25, 2021.

5. EXPLORATION AND EVALUATION ASSETS

The ultimate recoupment of the carrying value of exploration and evaluation assets is dependent on the successful development, commercial exploitation and financing of the areas of interest, or alternatively through sale.

At December 31, 2020 the Company held 100% of the outstanding and issued share capital of Macarthur Australia. Macarthur Australia's wholly owned subsidiaries MIO and MLI hold assets which include the Iron Ore Projects and Lithium Exploration Projects, respectively. Macarthur Minerals also holds 100% of Macarthur Lithium Nevada Limited ("MLiNV"), which holds a Lithium Exploration Project in Nevada.

The carrying value of the exploration and evaluation assets relates to the Iron Ore and Lithium Projects.

The Iron Ore projects' book value reflects the historical costs of exploration and evaluation expenditure capitalised in accordance with the Company's accounting policy and Australian Accounting Standards and IFRS.

Exploration expenditure of \$632,128 was capitalised during the period ended December 31, 2020, as per table below.

5. EXPLORATION AND EVALUATION ASSETS (Cont'd)

Commitments

In order to maintain its current rights of tenure for exploration and/or mining activities, the Company is required to perform minimum annual expenditure requirements specified by the Western Australian Government and pay local shire rents and rates. The expenditure obligations are subject to renegotiation when an application for a mining lease and/or renewal of exploration permits are made or at other times and are subject to whether the Company decides to continue a tenement's rights until its expiry. Due to the nature of the Company's activities, it is difficult to accurately forecast the amount of future expenditure that will be necessary to incur in order to maintain present interests.

These obligations are not provided for in the financial statements and are payable at future dates as follows:

	December 31, 2020	March 31, 2020
	\$	\$
Not later than one year	1,228,680	904,403
Later than one year but not later than five years	3,913,330	3,580,724
	<u>5,142,010</u>	<u>4,485,127</u>

For the next twelve months, the Company may apply for exemptions against expenditure in relation to those tenements which did not have sufficient expenditure recorded against them in the prior 12 months of their term. Exemption has and may be sought on the basis that aggregate expenditure on those tenements in prior years far exceeded the minimum required. In the event that exemption for these tenements is not granted (which the Company believes is highly unlikely), the Company may have to impair/expense the value of the amount capitalised to exploration and evaluation assets for those tenements.

If exemptions being applied for are approved as outlined above, the obligations not provided for in the financial statements are payable at future dates as follows:

	December 31, 2020	March 31, 2020
	\$	\$
Not later than one year	791,680	286,503
Later than one year but not later than five years	3,913,330	3,580,724
	<u>4,705,010</u>	<u>3,867,227</u>

The Company entered into an option agreement (as replaced by the New Option Agreement dated August 28, 2019) with FEL for its lithium and gold tenements in the Pilbara region of Western Australia. On September 15, 2020 FEL elected not to earn-in on the 25% Stage 1 Interest ("Stage 1 Interest") in Macarthur Lithium Pty Ltd's ("MLi") gold and lithium tenements in the Pilbara region of Western Australia, pursuant to the New Option Agreement. Following FEL's decision, the New Option Agreement was terminated and the parties finalised arrangements for the orderly close-out of the joint venture, with effect from September 15, 2020. Macarthur (through MLI) now retains 100% of the Tenements.

On December 23, 2019, the Company entered into an agreement with Arrow Minerals Limited ("Arrow") to acquire mineral tenure for the development of site infrastructure at its Lake Giles Iron Project. Macarthur has acquired a substantial package of land covering approximately 4,950 ha adjacent to the Moonshine Magnetite deposit. The tenure will be used for constructing and supporting infrastructure and it also paves the way forward to obtain access to tenure to construct a private haul road from the project through to the open access Perth to Kalgoorlie railway owned by Arc Infrastructure. In consideration for entering into the agreement, Macarthur paid Arrow \$500,000, being \$250,000 in cash, paid immediately, and issued 1,702,997 shares valued at \$250,000 on June 23, 2020 at AUD\$0.1468 per share.

Ordinary Shares

On November 20, 2019, the Company completed the consolidation of its share capital on the basis of one (1) post-consolidation ordinary share for four (4) pre-consolidation ordinary share (the "Consolidation Ratio") following approval of the consolidation by the TSX-V. The exercise price and the number of shares issuable under any of the Company's outstanding stock options, warrants, restricted share units and convertible notes, as applicable, have been proportionately adjusted in connection with the consolidation.

On December 4, 2019, the Company was admitted to the Official List of Australian Securities Exchange (ASX) and commenced quotation of its securities on the ASX on December 6, 2019 (ASX code: MIO).

Private Placement

On October 22, 2020, the Company announced¹ that it had closed a private placement ("Private Placement") of AUD \$6,249,440 with sophisticated and institutional investors with subscriptions totalling 11,362,618 Units.

Each placement unit ("Unit") is comprised of one Ordinary Share at a price of AUD \$0.55 and one attaching option to acquire one fully paid ordinary share in the Company (each, an "Option") at an exercise price of AUD \$0.90, with an expiry date 24 months from the date of issuance.

Following exchange final approvals and acceptance:

- The Placement securities being 11,362,618 New Shares and 5,137,382 Options were issued on October 26, 2020.
- The balance of 6,225,236 Options were issued on November 2, 2020, following receipt of shareholders' approval at the Company's Annual General Meeting on October 30, 2020 in accordance with ASX listing rule requirements relating to future placement capacity.

The net proceeds from the Offering will be used for working capital purposes.

The Company has authorized ordinary shares with no par value. All issued shares are fully paid and are equally ranked with voting rights.

Share Compensation Plans

The Company, in accordance with the Company's Employee and Consultant Share Compensation Plans ("Plans") and the policies of the TSX-V, is authorized to grant incentive stock options ("Options"), award equity restricted share units ("RSU's"), or bonus shares or issue ordinary shares from treasury pursuant to the Company's share purchase scheme to directors, employees and consultants to acquire in aggregate up to 20% of issued and outstanding ordinary shares as at August 30, 2019, being 321,033,625 (pre consolidation) ordinary shares.

On October 30, 2020 in the Company's Annual General Meeting, the shareholders approved both Plans, in replacement of the previous Plans, as well as the maximum number of ordinary shares of the Company that may be issued under the Plans was fixed at 20% of the number of ordinary shares of the Company issued and outstanding on September 30, 2020, being 125,599,345 ordinary shares.

The exercise price of the Options is fixed by the Board at no lesser than the discounted market price (as defined under the TSX-V Company Manual) of the shares on the grant date, subject to all applicable regulatory requirements. Options under the Plans can be granted for a maximum term of 5 years and may be subject to vesting criteria as determined by the Board.

The fair value of all issued Options is measured and expensed as share-based compensation at the grant date if they are fully vested upon granting, otherwise the fair value is expensed over the vesting period. A corresponding increase is recorded to reserves. For further detail on the accounting treatment of share options refer to Note 2 accounting policies of the audited consolidated financial statements for the year ended March 31, 2020.

Warrant Liability

During the period ended December 31, 2020, no warrants were granted. Where the warrants have an exercise price denominated in a currency which is different from the functional currency of the Company (Australian dollar), the warrants are treated as a financial liability. The Company's share purchase warrants are classified and accounted for as a financial liability at fair value with changes in fair value recognized in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. The warrant derivative liability is classified as level 2 in the fair value hierarchy. As of December 31, 2020, the Company had 25,777,188 (March 31, 2020 – 25,777,188) warrants outstanding, which are classified and accounted for as a financial liability. The Company recognised a loss of \$7,754,519 (December 31, 2019 – loss of \$471,409) from changes in the fair value of the warrant liability. The value of warrant liability as at December 31, 2020 is \$8,654,085. There are 21,675,913 warrants due to expire in the next 12 months. If they were to be exercised in accordance with the terms and conditions of the warrants, this would result in a cash inflow of up to CAD\$11,841,638.

7. SHARE-BASED COMPENSATION

The Company measures the cost of share options at fair value at the grant date using the Black-Scholes formula, adjusted to reflect market vesting conditions, but excludes any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to vest and the entity revises its estimate of options that are expected to vest at each reporting date.

The fair value calculated for options issued is expensed over their vesting period as share-based compensation in the Condensed Interim Statement of Profit and Loss and Comprehensive Income/(Loss) and a corresponding amount is recorded to reserves. Upon exercise the fair value of the options is re-classified from reserves to contributed equity. The weighted average fair value of options granted during the December 31, 2020 period ended was \$0.15 (December 31, 2019 – \$0.14). Refer to Note 6 for details of options.

8. RELATED PARTY TRANSACTIONS (Cont'd)

Other transactions with key management personnel

A number of key management personnel, or close members of their family, hold positions in other entities that result in them having significant influence over those entities for the purposes of IAS 24. Where transactions are entered into with those entities the terms and conditions are no more favourable than those that it is reasonable to expect the entity would have adopted if dealing on an arm's length basis. The Company did not enter into any transactions with entities over which key management personnel have significant influence during the period and the corresponding prior period.

9. TAX CONSOLIDATION

Macarthur Minerals and its wholly owned Australian subsidiaries are members of an Australian Income Tax Consolidated Group.

13. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of resource properties. The Board of Directors do not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In the management of capital, the Company includes unissued capital of shareholders' equity.

The properties in which the Company currently has an interest in are in the exploration and development stage; as such the Company is dependent on external financing to fund activities. In order to carry out planned exploration, conduct studies and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed.

In addition to its current exploration and evaluation activities, the Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended December 31, 2020. The Company is not subject to externally imposed capital requirements.

a) Exploration expenditures

Certain future exploration expenditures are required to be undertaken by the Company as a minimum retention for exploration permits. These expenditures were set out in Note 5 to the condensed interim consolidated financial statements for the period ended December 31, 2020.

Apart from the above, the Company has no other material commitments at the reporting period date.

13. CAPITAL MANAGEMENT (cont'd)

b) Convertible Notes

During September 2020, all outstanding notes were converted into Company shares prior to their maturity. The security (for the Convertible Notes) held over the Company's Lake Giles iron ore tenements has been lifted as of December 18, 2020.

14. CONTINGENT LIABILITIES

a) Security Bonds

The Company has a contingent liability bank guarantee issued of \$55,750 for office leasing arrangements in Brisbane and corporate credit cards.

b) Supreme Court Proceedings

LPD v. Macarthur and Ors. ("New Proceedings")

No steps have been taken in the New Proceedings by the plaintiff since January 22, 2015 and this matter remains ongoing.

Like the dismissed Initial Proceedings, the Company considers the New Proceedings are without merit and will continue to vigorously defend those proceedings.

Chan, Chan and Kwok ("FSDC Directors") v. Macarthur Minerals Limited and Ors.

On July 5, 2019, the FSDC Directors filed a notice of appeal to the Supreme Court of Queensland where the review was held by the court on August 28, 2019. The appeal was subsequently set down for hearing on October 24, 2019. On June 30, 2020, the Court of Appeal handed down its decision, dismissing the appeal with costs.

On July 29, 2020, the FSDC Directors filed in the High Court of Australia an application for special leave to appeal against the judgement of the Court of Appeal of the Supreme Court of Queensland. On November 5, 2020, the High Court dismissed the application by the FSDC Directors for special leave to appeal against a previous decision of the Court of Appeal of the Supreme Court of Queensland.

The High Court's refusal to grant the Applicants special leave to appeal means that the longstanding proceedings (initiated in 2016) are now finally at an end. There is no further avenue of appeal available to the FSDC Directors.

b) Memorandum of Understanding with Southern Ports Authority

On January 29, 2021, the Company signed a Memorandum of Understanding (“MOU”) with Southern Ports Authority (“SPA”) which provides a pathway for agreeing a potential access and operating solution for the export of Macarthur’s high grade magnetite iron ore product via the Port of Esperance (“Port”).

The MOU is non-binding but it does establish a clear pathway for i) the design of a 300,000 tonne storage shed (“shed”) by Macarthur, ii) the design of a new rail car unloading solution at the Port by Macarthur (presently proposed to be an Australian-first Helix rail car unloading solution and associated tube conveyor) (“Helix Dumper”), iii) the approval of the shed and Helix Dumper designs by SPA and iv) the identification of suitable land by SPA for the construction of the shed and Helix Dumper within the Port. A conceptual engineering design report was completed by RCR Mining Technologies Pty Ltd in 2020, for the proposed Helix Dumper and, subject to mutually satisfactory engineering design and approval processes for the shed and Helix Dumper being completed (and suitable land being identified by SPA for their construction), the parties intend to commence good faith negotiations on the terms of binding commercial agreements which will be necessary for Macarthur to i) construct, operate and maintain the shed and Helix Dumper; and ii) to access the Berth 3 ship loader at the Port.

Any binding commercial agreements in relation to the shed, Helix Dumper and ship loader access will be conditional upon agreed milestones being met by Macarthur (including financing for its Lake Giles Iron Project).

c) Appointment of consultants

On February 16, 2021, the Company announced that it has appointed the following leading consultants to enhance the delivery of the Feasibility Study for the high-grade magnetite, Lake Giles Iron Project in Western Australia:

- **Study Management:** Optimize Group (“Optimize”) appointed to provide study management services and to assist in the preparation of the final Feasibility Study Reports.
- **Transport Logistics:** Projectus Infrastructure (“Projectus”) appointed to provide transport infrastructure (rail and port) optimisation support for the delivery of the Feasibility Study.
- **Economic Modelling:** FTI Consulting (“FTI”) appointed to provide economic and financial modelling services for the Feasibility Study.

d) Warrants

The extension of the expiry date of 7,928,183 post consolidation common share purchase warrants that were issued as part of the Rights Offering completed by the Company in December 2017 was approved by the TSX-V for extension to 15 December 2021.

e) Shared Based Compensation

Since the year end and up to the date of signing this report, a total of 3,500,000 performance-based options have been issued by the Company to EAS Advisor LLC and Investor Cubed Inc. Respectively, pursuant to the Company’s Share Compensation Plan (“Plan”), the Company has also granted a total of 3,282,500 Restricted Share Units (RSUs) and 3,000,000 bonus shares (Bonus Shares) to directors, employees and consultants of the Company. Following grant, the Bonus Shares were subject to 6 months voluntary escrow from August 7, 2020 and released from escrow on February 8, 2021.
