NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Australian Dollars)

(Unaudited)

FOR THE NINE MONTHS ENDED DECEMBER 31, 2023

NATURE AND CONTINUANCE OF OPERATIONS

Macarthur Minerals Limited is an Australian public company listed in Canada on the TSX Venture Exchange ("TSX-V") (symbol: MMS), Australian Securities Exchange ("ASX") (symbol: MIO) and OTCQB Venture Market ("OTCQB") (symbol: MMSDF). The Company has three iron ore projects in the Yilgarn region of Western Australia. The Company also has two exploration project areas in the Pilbara, Western Australia targeting iron ore. In addition, Macarthur Minerals has lithium brine interests in the Railroad Valley, Nevada, USA.

As at December 31, 2023, the Company has the following subsidiaries (collectively referred to as the "Group"):

- 100% of Macarthur Australia Limited, which holds the following 100% subsidiaries:
- 100% of Macarthur Iron Ore Pty Ltd ("Macarthur Iron Ore" or "MIO") which owns the Iron Ore Projects
- 100% of Macarthur Lithium Nevada Limited (incorporated in Nevada)
- 100% of Esperance Iron Ore Export Company Pty Ltd (previously Macarthur Midway Pty Ltd)
- 100% of Macarthur Marble Bar Lithium Pty Ltd (previously Bachelor Project Pty Ltd) (a dormant subsidiary); and
- 100% of Macarthur Minerals NT Pty Ltd ("MMNT") and MMNT's 100% subsidiary, Macarthur Tulshyan Pty Ltd.

There was no change in the nature of the Company's principal activities during the year. Infinity Mining Limited ("IML") has been accounted for as an associate of Macarthur Minerals Group. At reporting date, the Group has 24,365,802 shares in Infinity Mining Limited (ASX: IMI) or 20.52% (based on 118,753,390 shares) and 6,091,450 Options with exercise price \$0.20 expiring September 19, 2024 (ASX: IMIO) issued as pro-rata non-renounceable bonus issue of one (1) Bonus Option for every four (4) Shares held in IMI on the Record Date of September 12, 2023, for nil consideration.

The Company continues to maintain its corporate head office and principal place of business at Suite 1G, Building 1, Kings Row Office Park, 40 McDougall Street, MILTON QLD 4064, Australia.

1. BASIS OF PRESENTATION

These general-purpose interim consolidated financial statements for the nine-month reporting period ended December 31, 2023 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Macarthur Minerals Limited and its controlled entities (referred to as the "Consolidated Group" or "Group"). As such, it does not contain information that represents relatively insignificant changes occurring during the nine-month within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended March 31, 2023, together with any public announcements made during the following nine-month.

These condensed interim consolidated financial statements were authorised by the Board of Directors of the Company on February 14, 2023.

GOING CONCERN

The consolidated financial statements have been prepared on the going concern basis of accounting, which assumes the continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

MACARTHUR MINERALS LIMITED
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Australian Dollars)
(Unaudited)
FOR THE NINE MONTHS ENDED DECEMBER 31, 2023

The Group incurred a net profit after tax of \$2,739,709 after including an adjustment to Reserves and had net operating cash outflows of \$1,533,476 for the nine-month ended December 31, 2023. As at December 31 2023, current liabilities exceeded current assets by \$774,487.

The Directors believe the going concern assumption is valid, reaching such a conclusion after having regard to the factors set out below. Should these factors not eventuate, there is a material uncertainty which may cast significant doubt as to whether the company will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements.

The Directors believe that the Group will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the consolidated financial statements after consideration of the following factors:

- The Directors believe that future funding will be available to meet the Group's objectives of expanding key strategic assets and continuing to pay its debts as and when they fall due, including through:
 - engaging with parties interested in joint venture arrangements; and/or
 - raising additional capital through equity placements to existing or new investors. The Group has a demonstrated history of success in this regard including having raised approximately \$5,718,602 (after costs) via a private placement in April 2022. The directors are confident in their ability to continue to raise additional funds on a timely basis, as and when required; and/or
 - raising additional debt funding;
- The Group's ability to generate cash inflows from a shared service arrangement with Infinity Mining Limited;
- The Group's present cash holdings at December 31, 2023 is \$410,856 and its commitment to exploration expenditure can be reduced as required, subject to minimum spend requirements;
- The Group has capacity, if necessary, to reduce its operating cost structure in order to minimise its working capital requirements.

Should the Group be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. This financial report does not include any adjustments relating to recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the Group be unable to continue as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

3. EXPLORATION AND EVALUATION ASSETS

The ultimate recoupment of the carrying value of exploration and evaluation assets is dependent on the successful development, commercial exploitation and financing of the areas of interest, or alternatively through sale. At December 31, 2023 the Company held 100% of the outstanding and issued share capital of Macarthur Australia. Macarthur Australia's wholly owned subsidiary Macarthur Iron Ore ("MIO") holds assets which include the Iron Ore Projects. Macarthur Minerals also holds 100% of Macarthur Lithium Nevada Limited ("MLiNV"), which holds a Lithium Exploration Project in Nevada.

The carrying value of the exploration and evaluation assets relates to the Iron Ore and Lithium Projects.

Exploration expenditure of \$730,549 was capitalised during the period ended December 31, 2023 as per table below.

All capitalised exploration costs represent costs incurred during the exploration and evaluation phase.

Commitments

In order to maintain its current rights of tenure for exploration and/or mining activities, the Group is required to perform minimum annual expenditure requirements specified by the Western Australian Government and pay local shire rents and rates. The expenditure obligations are subject to renegotiation when an application for a mining lease and/or renewal of exploration permits are made or at other times and are subject to whether the Group decides to continue a tenement's rights until its expiry. Due to the nature of the Group's activities, it is difficult to accurately forecast the amount of future expenditure that will be necessary to incur in order to maintain present interests.

These obligations are not provided for in the financial statements and are payable at future dates as follows:

	December 31, 2023 \$	March 31, 2023 \$
Not later than one year	1,144,893	1,066,183
Later than one year but not later than five years	181,460	3,928,059
	1,326,353	4,994,242

For the 12-month period ending December 31, 2024, the Group may apply for exemptions against expenditure in relation to those tenements which did not have sufficient expenditure recorded against them in the prior 12 months of their term. Exemption has and may be sought on the basis that aggregate expenditure on those tenements in prior years far exceeded the minimum required. In the event that exemption for these tenements is not granted (which the Group believes is highly unlikely), the Group may have to impair/expense the value of the amount Capitalised to exploration and evaluation assets for those tenements.

Share-based payment reserve

The Group has issued share options, rights and warrants on specified terms. The cost of these items is measured by reference to their fair value at the date at which they are granted and expensed over the vesting period. The fair value is determined using Option valuation models.

For the period ended December 31, 2023, the Company made an adjustment to Reserves to reflect the value of options and RSU's outstanding as at December 31, 2023 which resulted in a decrease to Reserves of \$5,099,540.

Financial Asset Revaluation Reserve

The financial asset revaluation reserve records revaluations of financial assets.

Share Capital Reserve

The share capital reserve records the residual value of contributed equity after deducting the fair value of the common shares issued.

Share Compensation Plans

The Company, in accordance with the Company's Omnibus, Employee and Consultant Share Compensation Plans ("Plans") and the policies of the TSX-V and ASX, is authorised to grant incentive stock options ("Options"), award equity restricted share units ("RSU's"), or bonus shares or issue ordinary shares from treasury pursuant to the Company's share purchase scheme to directors, employees and consultants to acquire in aggregate up to 20% of issued and outstanding ordinary shares as at August 2, 2023, being 165,853,488 Common Shares. The Plans were approved on August 29, 2023 by the shareholders and replace the Company's previous Plans.

The exercise price of the Options is fixed by the Board at no less than the discounted market price (as defined under the TSX-V Company Manual) of the shares on the grant date, subject to all applicable regulatory requirements. Options under the Plans can be granted for a maximum term of 5 years and may be subject to vesting criteria as determined by the Board.

The fair value of all issued Options is measured and expensed as share-based compensation at the grant date if they are fully vested upon granting, otherwise the fair value is expensed over the vesting period. A corresponding increase is recorded to reserves.

Share Options

During the nine-month period ended December 31 2023, 150,000 options were forfeited.

Share option transactions issued under the Company's Share Compensation Plans and the number of share options outstanding are summarized as follows:

Warrant Liability

During the period ended December 31 2023, no warrants were granted. Where the warrants have an exercise price denominated in a currency which is different from the functional currency of the Company (Australian dollar), the warrants are treated as a financial liability. The Company's share purchase warrants are classified and accounted for as a financial liability at fair value with changes in fair value recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. The warrant derivative liability is classified as level 2 in the fair value hierarchy.

5. SHARE-BASED COMPENSATION

The Company measures the cost of share options at fair value at the grant date using the Black-Scholes formula, adjusted to reflect market vesting conditions, but excludes any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to vest and the entity revises its estimate of options that are expected to vest at each reporting date.

The fair value calculated for options issued is expensed over their vesting period as share-based compensation in the statement of profit or loss and other comprehensive income and a corresponding amount is recorded to reserves. Upon exercise the fair value of the options is re-classified from reserves to contributed equity.
